PRESS RELEASE - April 2011

Dear Valued Customer:

K.G. International, Inc. ("KGI") is pleased to announce that American Chemical I.C.S.A. ("ACh") has successfully listed the following surfactants on CleanGredients:

- **Imbirex CR: Nonylphenol Ethoxylate Alternative**
- **Lavrex 200 AZF: High 2-Phenyl Linear Alkylbenzene Sulfonic Acid 96%**
- **Lavrex 200 B: Low 2-Phenyl Linear Alkylbenzene Sulfonic Acid 96%**
- **Lessrex 70: Sodium Lauryl Ether Sulfate 70% - 2 MOL**
- **Pastrex 75: Blend of Surfactants for Liquid Detergents**
- **Pastrex SH: Blend of Surfactants for Personal Care Products**
- **Rexamida BT: Cocamidopropyl Betaine**
- **Rexquat WRT: Quaternary Cationic Surfactant for Cold Mix Personal Care Products**

CleanGredients is an online database of cleaning ingredients — the online resource for green formulation®. CleanGredients aligns broad environmental and human health goals with the cleaning product industry's business objectives and will support formulation of products with human and environmental health benefits, whether to meet corporate internal objectives, regulations, voluntary product recognition programs, or national and international eco-labels.

All of the above surfactants satisfy the Environmental Protection Agency's ("EPA") Design for the Environment ("DfE") Criteria for Safer Chemical Ingredients. These ingredients are ideal candidates for use in cleaning products recognized by the EPA's DfE's Formulator Program. What's more, this new initiative further illustrates KGI's longstanding commitment to helping our customers understand and mitigate the environmental footprint and harms of their products and operations.

Please contact your KGI Sales Representative for technical information, lead times and pricing.

FOR IMMEDIATE RELEASE

About American Chemical I.C.S.A.:

ACh is a leading Latin American manufacturer of biodegradable surfactants, raw materials and blends for personal care products and household, industrial and institutional cleaners. Headquartered in Montevideo, the capital of Uruguay, American Chemical was founded in 1961 and sells their products in more than thirty countries across five continents.

More information about the company, which is ISO 9001:2008 certified, may be found on their website: www.americanchemical.com.uy
