

**INTERNATIONAL**  
INGREDIENTS & PACKAGING

COSMETICS &  
PERSONAL CARE

Simplify your supply chain by relying on KGI for all your ingredient and packaging needs.

### Leading Hybrid Distributor of Chemicals, Ingredients & Packaging Materials

- Family-owned and operated since 1982.
- Serving 700+ customers throughout the Americas and beyond.
- 45,000 sq. ft. distribution center just minutes from the Port of Miami and MIA.
- Third-party warehousing in strategic locations, including Puerto Rico.
- GreenLab established in 2007 to promote environmentally sustainable products and practices.

### Assuring the Highest Standards for Quality, Safety, and Stewardship

As a proud member of the **Alliance for Chemical Distribution**, we adhere to **Responsible Distribution**, a third-party verified management system that assures that our products and operations meet the highest industry standards for quality, safety, security, and environmental stewardship.

## Boston Rounds

**Neck Diameter:** 18mm - 33mm

**Applications:** Lotions, serums, low-to-mid viscosity finished products

**Feature:** Type III pharma grade soda-lime glass

**Capacity:** 0.5 oz. - 32 oz.

**Colors:** Amber, clear/flint, cobalt blue, emerald green

 **Matching Products:** Continuous thread caps, pumps, droppers, fine-mist sprayers

## Jars

**Neck Diameter:** Variety of sizes

**Applications:** Creams, balms, lotions, and other skin care products

**Capacity:** 15ml - 100ml

 **Matching Products:** Fine-ribbed or smooth wall continuous thread caps

## Why Choose Glass?

Glass is hygienic, durable, and safe for a wide variety of finished product applications due to its chemical resistance and superior barrier properties.

- Preservation & Protection
- Luxurious Look & Feel
- Sustainable, Recyclable & Reusable
- Resistant to Heat, Light, & Chemicals

## Perfume Bottles

**Neck Finish:** Threaded or crimp-on finish in various diameters

**Style:** Square, rectangle, cylindrical, oval, specialty

**Capacity:** 1ml - 250ml

**Customization:** Lacquering, screen printing, secondary processing services

 **Matching Products:** Perfume sprayers

## Dozens of Mold Options

## Glass Bottle Decoration Options

**Screen Printing:** A versatile and durable printing process.

**Custom Labels:** Wide variety of materials and features to choose from.

**Shrink Banks and Sleeves:** Provides tamper-evidence and large canvas for branding.

**Bottle Coating:** Achieve stunning effects like frosted, metallic, and more.

For unique glass bottle molds and designs, learn more about our Private Molds on page 15.

## PET Boston Rounds

**Neck Diameter:** 20mm - 28mm

**Applications:** Body, hair, and skin care products

**Capacity:** 2 oz. - 32 oz.

**Stock Colors:** Amber, clear, cobalt blue, emerald green

 **Matching Products:** Dispensing caps or continuous thread caps

## PET Bullet (Cosmo) Rounds

**Neck Diameter:** 20mm - 28mm

**Applications:** Body, hair, and skin care products

**Capacity:** 2 oz. - 32 oz.

**Stock Colors:** Amber, black, clear, cobalt blue, green, purple, white, and custom colors available

 **Matching Products:** Dispensing caps or continuous thread caps

## PET Oval Rounds

**Neck Diameter:** 20mm - 24mm

**Applications:** Body, hair, and skin care products

**Capacity:** 2 oz. - 16 oz.

**Stock Colors:** Clear

 **Matching Products:** Dispensing caps or continuous thread caps

## Why Choose Plastic?

Plastic is lightweight, yet durable and impact resistant, making it ideal for bottles in the bathroom or shower environment. The material is also compatible with a wide range of ingredients and finished products. Most plastic bottles (i.e., PET and HDPE) are also widely recyclable and may be made from post-consumer recycled (PCR) resin.

- Safe, Durable & Impact Resistant
- Lightweight & Flexible
- Cost-effective & Recyclable

## HDPE Bullet Rounds

**Neck Diameter:** 20mm - 28mm

**Applications:** Body, hair, and skin care products

**Capacity:** 2 oz. - 32 oz.

**Stock Colors:** Black, natural, white

 **Matching Products:** Dispensing caps or continuous thread caps

## HDPE Cylinder Rounds

**Neck Diameter:** 20mm - 28mm

**Applications:** Body, hair, and skin care products

**Capacity:** 2 oz. - 32 oz.

**Stock Colors:** Black, natural, white

 **Matching Products:** Dispensing caps or continuous thread caps

## Bulk Rounds

**Neck Diameter:** 38mm

**Applications:** Body, hair, and skin care products

**Capacity:** 1 gal.

**Stock Colors:** Black, natural, white

 **Matching Products:** Dispensing caps, continuous thread caps, and pumps

## Plastic Bottle Decoration Options

**Custom Colors:** Endless colors or tints to choose from.

**Screen Printing:** A versatile and durable printing process.

**Custom Labels:** Wide variety of materials and features to choose from.

**Shrink Banks and Sleeves:** Provides tamper-evidence and large canvas for branding.

For unique plastic bottle molds and designs, learn more about our Private Molds on page 15.

## Single Wall Jars

Neck Diameter: 22mm - 120mm

Applications: Body, hair, and skin care products

Capacity: 0.5 oz. - 32 oz.

Material: PP & PET

Stock Colors: Black, clear (PET), natural (PP), white

 **Matching Products:** Fine-ribbed or smooth wall continuous thread caps

## Double Wall Straight Sided Jars

Neck Diameter: 58mm - 89mm

Applications: Body, hair, and skin care products

Capacity: 2 oz. - 12 oz.

Material: PP

Stock Colors: Black, natural, white

 **Matching Products:** Fine-ribbed or smooth wall continuous thread caps

## Double Wall Dome Base Jars

Neck Diameter: 58mm - 89mm

Applications: Body, hair, and skin care products

Capacity: 2 oz. - 8 oz.

Material: PP

Stock Colors: Black, natural, white

 **Matching Products:** Dome, fine-ribbed or smooth wall continuous thread caps

## Laminated & Extruded Tubes

Laminated tubes are made by bonding multiple layers of different materials together, while extruded tubes are made from a single layer of plastic that is extruded through a die.

**Neck Diameter:** 0.625 inches to 2.375 inches

**Applications:** Higher viscosity body, hair, and skin care products

**Capacity:** Various

**Neck Finish Options:** Continuous thread, snap-on, deckless

**Matching Products:** Dispensing and continuous thread caps

## Choosing the Right Tube

Laminated tubes offer superior barrier protection, durability, and print options, compared to extruded tubes, but they are also more costly. Both types can be made with sustainable materials, but laminated tubes are generally more difficult to recycle.

## Popular Tube Decoration Options

**Photochromic Ink**  
Color changing under UV light

**Tactile Varnish**  
Textured look and feel

**Holographic Foil**  
Shine with eye-catching patterns

**Soft Touch Varnish**  
Luxurious feel and scuff-resistant

**Hot Stamp/Cold Foil**  
Metallic premium effect

**Embossing/Debossing**  
Added depth and texture

## Continuous Thread Caps

Versatile twist-off closures feature a wide range of sizes/diameters and styles, including fine-ribbed, smooth wall, and domed. All caps are available linerless or with a variety of liner options, including foam, pressure sensitive, and heat induction liners.

### Fine-ribbed

**Neck Diameter:** 13mm - 120mm

**Feature:** Easy to grip

**Material:** PP & PET

**Stock Colors:** Black, natural, white

### Smooth Wall

**Neck Diameter:** 22mm - 120mm

**Feature:** Elegant look

**Material:** PP & PET

**Stock Colors:** Black, natural, white

### Domed

**Neck Diameter:** 58mm - 89mm

**Feature:** Rounded for aesthetics

**Material:** PP & PET

**Stock Colors:** Black, natural, white

### Liner Options

**Foam:** General purpose liner for leak-prevention.

**Heat Induction:** Suitable for liquid and dry products, and available for all container material types with single or multi-layer options.

**Pressure Sensitive:** Suitable for dry products, liner adheres to the rim of the container upon initial tightening.

### Custom Options Available

Transform the lid of your container into a powerful branding tool by printing or embossing your brand's logo or trademark on the top surface of the cap.

## Dispensing Caps

Our easy-to-use dispensing caps are perfect for one-hand operation and can be customized to complement your branding.

### Press Tops

**Neck Diameter:** 22mm - 28mm

**Applications:** Medium to high viscosity products

**Material:** PP and mixed

**Options:** Fine-ribbed or smooth wall

 **Matching Products:** Plastic bottles

### Flip Tops

**Neck Diameter:** 22mm - 28mm

**Applications:** Low to high viscosity products depending on orifice size

**Material:** PP

**Options:** Fine-ribbed or smooth wall; orifice size varies

 **Matching Products:** Plastic bottles

### Droppers

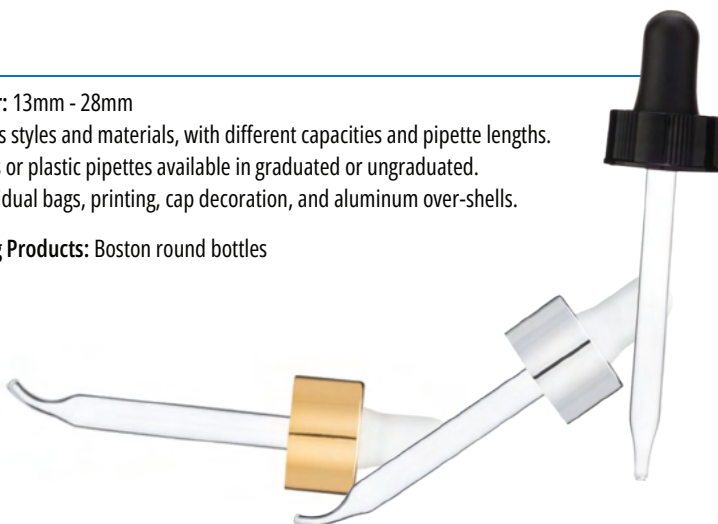

**Neck Diameter:** 13mm - 28mm

**Variety:** Various styles and materials, with different capacities and pipette lengths.

**Material:** Glass or plastic pipettes available in graduated or ungraduated.

**Options:** Individual bags, printing, cap decoration, and aluminum over-shells.

 **Matching Products:** Boston round bottles

## Sprayer and Pump Options Tailored for Your Product

Our sprayers and pumps are highly customizable and can be tailored for your product's unique composition and branding, not to mention output requirements. Dip tubes are precisely cut in accordance with bottle height to ensure the perfect fit.

### Fingertip Mist Sprayers

**Neck Diameter:** 18mm - 28mm

**Output:** 0.1ml - 2.00ml

**Applications:** Body spray, hair styling products, sun care products, toner, etc.

**Material:** PP and various

**Options:** Overcaps available

 **Matching Products:** Glass or plastic bottles

### Trigger Mist Sprayers

**Neck Diameter:** 20mm - 28mm

**Output:** 0.15ml - 3.0ml

**Applications:** Body spray, hair styling products, sun care products, etc.

**Material:** PP and various

 **Matching Products:** Plastic bottles

### Perfume Sprayers

**Neck Diameter:** 15mm - 28mm

**Output:** 0.05ml - 0.13ml

**Applications:** Perfume

**Material:** Various

**Options:** Threaded or crimp-on finish, overcaps available

 **Matching Products:** Perfume bottles

## Lotion Pumps

**Neck Diameter:** 24mm - 33mm

**Output:** 2.0ml - 8.0ml

**Applications:** Skin and haircare products

**Material:** PP and various

**Features:** Down/up lock (clockwise/counterclockwise), 360° rotation, clip lock, water proof

**Options:** Wide selection of tubes, actuators, and engines to choose from

 **Matching Products:** Glass or plastic bottles

## Foamer Pumps

**Neck Diameter:** 30mm – 43mm

**Output:** 0.40ml – 0.85ml

**Applications:** Foaming cleansers, skin care, and hair care products

**Feature:** Various locking systems available

**Options:** Wide selection of tubes, actuators, and engines to choose from

**Overcaps:** Available

 **Matching Products:** Glass or plastic bottles

## Treatment Pumps

**Neck Diameter:** 15mm – 24mm

**Output:** 0.13ml – 0.50ml

**Applications:** Skin care products

**Feature:** Various locking systems available

**Options:** Wide selection of tubes, actuators, and engines to choose from

**Overcaps:** Available

 **Matching Products:** Glass or plastic bottles

## Get Everything You Need

Struggling to narrow down the vast universe of options available to package your product? Relax, we have you covered with our complete package solutions that offer not only stunning design, but incredible value and convenience. Options come with all primary packaging options you will need for your product and are ready to be filled.

### Airless Bottles

**Neck Diameter:** Various

**Capacity:** 5ml – 200ml

**Output:** 0.10ml – 2.0ml

**Applications:** Skin care products like lotions, creams, serums, oils, etc.

**Material:** Various

### Sprayer Bottles

**Neck Diameter:** 15mm - 32mm

**Capacity:** 2ml - 25ml

**Output:** 0.10ml – 2.0ml

**Applications:** Body spray, hair styling products, sun care products, perfume, toner, etc.

**Material:** Various

### Cream Jars

**Neck Diameter:** 32.9mm – 92.5mm

**Capacity:** 15ml – 450ml

**Applications:** Skin care products

**Material:** Various

## Private Molds

Looking for that unique look that will set your product apart from the competition? Our team of packaging engineers can help you achieve it!

From concept ideation to manufacturing your proprietary packaging components, and all the steps in between, our team of experts will guide you through the entire process. We have manufacturing partners throughout the United States and across the globe, which help us optimize unit and tooling costs, lead time, minimum order quantities, and supply chain logistics.

We design and develop a wide range of primary and secondary packaging components in glass, plastic, and cardboard, including:

- Bottles
- Boxes
- Dispensing Closures
- Flexible Packaging
- Jars
- Labels

## Sustainable Packaging

At KGI, we are passionate about environmental sustainability and the circular economy, and have been on the leading edge of these movements since we launched KGI GreenLab in 2007.

Our multidisciplinary team is eager to help you reduce the environmental footprint of your packaging materials, not to mention substantiate all related marketing claims, including through third-party certification, such as under the USDA's biobased packaging label.

We specialize in the following areas:

Biobased Packaging

Design for Recyclability

Reuse/Refill Systems

Biodegradable Packaging

Lightweighting

rPET and Recycled Plastics

## Ingredients and Raw Materials for the CPC Industry

For over four decades, KGI has been a leading supplier of ingredients for the cosmetics and personal care product industry. We have vast technical expertise and resources and are proud to represent some of the world's most trusted and innovative manufacturers of ingredients and raw materials.

Below is a partial list of our most popular ingredient categories:

- Antioxidants
- Botanical Extracts & Oils
- Carbomers
- Colorants
- Emollients
- Emulsifiers
- Exfoliants
- Fatty Acids
- Fatty Alcohols
- Fragrances
- Humectants
- Natural Butters
- Mineral Oils
- Peptides
- Petrolatum
- pH Adjusters
- Proteins & Amino Acids
- Preservatives
- Polyquaterniums
- Polysorbates
- Rheology Modifiers
- Silicones
- Solvents
- Specialty Additives
- Sunscreen Agents
- Surfactants
- Vitamins
- Waxes

## Your Surfactants Specialist

We specialize in supplying these versatile ingredients, including **amphoterics, anionics, cationics, nonionics**, and specialty surfactant **blends**. We also offer many naturally derived alternatives and surfactants certified by the Roundtable for Sustainable Palm Oil, or RSPO.

To complement our extensive portfolio, we have the technical expertise to help you develop the optimal surfactant system for your product, budget, and intended marketing claims.

## Mild Cleansing Portfolio

The following mild surfactants are **sulfate-free** and **paraben-free**, providing gentle, effective cleansing for skin and hair:

- **Glycinates:**
  - Sodium Cocoyl Glycinate
  - Sodium Lauroyl Glycinate
- **Glutamates:**
  - Disodium Cocoyl Glutamate
  - Disodium Lauroyl Glutamate
- **Sarcosinates:**
  - Sodium Lauroyl Sarcosinate
- **Taurates:**
  - Sodium Methyl Cocoyl Taurate
  - Sodium Methyl Lauroyl Taurate
- **Isethionates:**
  - Sodium Cocoyl Isethionate
  - Sodium Lauroyl Isethionate

## Formula Follows Function

Our approach to cosmetic and personal care product formulation is simple. First identify the functional benefits to be delivered and then specify ingredients, ideally plant-based, that will get the job done.

### Benefits for Hair Care

- Anti-Frizz
- Color Retention & Enhancement
- Conditioning
- Curl Enhancement
- Damage Recovery & Repair
- Moisturizing & Hydrating
- Protection (UV, Heat, Pollution)
- Shine
- Thickening
- Volumizing

### Benefits for Skin Care

- Anti-Aging
- Anti-Irritation & Soothing
- Blemish Treatment
- Brightening & Lightening
- Contouring (Face & Eye)
- Fine Line & Wrinkle Treatment
- Firming & Tightening
- Moisturizing & Hydrating
- Protection (UV, Heat, Pollution)
- Repairing

## Proteins & Amino Acids

Proteins and amino acids are highly effective, natural ingredients that help nourish the hair and skin. Our extensive portfolio features proteins and amino acids derived from the following natural sources:

- Baobab
- Barley
- Collagen
- Flax
- Keratin
- Marine Collagen
- Milk
- Oat
- Hemp
- Quinoa
- Rice
- Silk
- Soy
- Vegetable
- Wheat

Each type of natural source, or feedstock, imparts its own distinctive benefits. Contact our technical team to learn how proteins and amino acids can enhance your hair or skin care product formulation.

## Modern Preservatives

Modern preservatives, which include alternatives like organic acids and plant extracts, feature superior safety profiles compared to traditional preservatives like parabens. This results in a reduced risk of skin irritation and sensitization, making them a key component of the “Clean Beauty” movement.

We offer an extensive portfolio of modern preservative systems, as well as the technical support, including challenge testing, to help you reformulate your products to align with current market trends.

Examples of our Modern Preservatives:

- Benzoic Acid
- Benzoic Undecylenoyl Glycine
- Capryloyl Glycine
- Caprylyl Glycol
- Ethylhexylglycerin
- Phenethyl Alcohol
- Phenoxyethanol
- Potassium Sorbate
- Sodium Benzoate
- Sodium Dehydroacetate
